

Single & Twin Jumbo Filter Systems - Whole House / Commercial use

PSJ Jumbo Filter Systems are the perfect solution for whole house or small commercial / industrial applications. Large 1" bsp inlet and outlet ports allow high flow rate and capacity performance. These Jumbo housings can use a range of Jumbo filter cartridges to suit your application.

These systems connect to your mains or pumped water supply and are easily maintained and affordable. We recommend cartridges are replaced every 12 months dependant on application and usage.

Features & Benefits

- Includes mounting bracket, mounting screws, spanner
- Housings have a gauge mounting port and a pressure vent
- Various configurations to suit all applications
- Reduces sediment, chlorine, taste / odour depending on filter cartridges selected
- 1" BSPF reinforced inlet / outlet ports
