

BWT bestclear
best water technology

Best rinsing results with optimised water

- Efficient – maximum capacities in the smallest space thanks to High Efficiency Technology (HET)
- Reasonably priced – ideal for compact dishwashers
- Simple – quick, uncomplicated filter change

Top Technology

- 5-fold filtration – efficient part desalination
- Can be used horizontally and vertically
- Bypass setting once directly on the filter head
- Automatic water stop when exchanging the filter
- Efficient limescale protection in cold water and hot water up to 65 °C
- One connection technique for all types and sizes of filter

BWT bestclear filter cartridge

Today's customer has high expectations. They value quality, service and perfection, including the detail. Restaurateurs who take these demands seriously have an innovative tool available to them rinsing technology in the filter system BWT bestclear. Through its special design, BWT bestclear ensures that nothing can dry on crockery, glasses or cutlery during the rinsing process. The result is conclusive: spotless place settings, brilliantly shining glasses and sparkling cutlery, making the table ambiance perfect for the customer.

Customer benefits at a glance

- Reducing limescale and particles.
- No dried-on spots or smears
- Minimising detergent use
- Brilliantly shining crockery, glass and cutlery
- No need to polish
- Flawless foaming in sparkling wine and beer glasses

Configuration of a BWT bestclear filter cartridge with 5-way filtration
