

Undersink Single Water Filter System

Model: EFS1000 Replacement cartridge: QC1534

Perfect for small households - the EFS1000 quick change system is the best value water filter for your home. The system should only be used in low usage applications on mains treated water. For a quick connect cartridge also makes installation and change out easy. Great tasting filtered water from the separate tap can now be used for drinking, beverage mixing and all your cooking needs. The system reduces sediment, particles, chlorine, organics and taste & odours.

Note - for medium/large households or where higher dirt levels may be present an upgrade to the twin EFS2000 is recommended.

Model: EFS1000

Features & Benefits

- Economical system for small households
- Reduces sediment, dirt, rust, chlorine, taste and odour
