

## Replacement Filter Cartridges

### Sediment

- Made from food grade polypropylene
- Available in a range of micron ratings and sizes
- Reduces sediment, dirt, rust, particles
- Graded density profile to maximize dirt holding capacity
- Individually wrapped, sealed and labeled

### Carbon Block

- Activated carbon in porous block
- Reduces chlorine, organic matter, bad taste/odours
- Excellent reduction of chlorine
- Individually wrapped, sealed and labeled
- Available in a range of micron ratings from extra fine 0.5 micron for cyst removal

### Granular Carbon

- Granular activated carbon general use cartridge
- Pre and post filter for sediment reduction
- Reduces chlorine, organic matter, bad taste/odours
- Individually wrapped, sealed and labeled

### Large diameter and specialist cartridges

- Designed to suit Jumbo style housings
- Range of sediment reduction and carbon cartridges

# PURE CLEAN H2O Water Filter Systems

## Product Guide

• Home • Office • Commercial  
Australian Standards Certified Products

QUALITY PERFORMANCE VALUE

## SYSTEMS

*Pure Clean H2O provide a wide range of water filter systems to suit all applications in your home or office. From filtering all the water to your existing mixer tap, to quick change systems with stylish faucets to conventional high capacity systems the PCH range has you covered. Remember that all our systems have plumbing fittings included and have WaterMark certification for your protection. Cartridge replacement is recommended annually for optimum system performance.*

### QCP 1000

- Sanitary quick change economical system
- Reduces sediment, dirt, rust, chlorine, taste and odour
- Removes parasitic cysts including giardia and cryptosporidium
- Easy change cartridge
- Auto shut off head
- All fittings included
- Stylish fin faucet supplied
- Timestrip cartridge change reminder

### WSP 1000

- Economical standard system
- Single cartridge system sediment/ chlorine
- All fittings and wrench included
- Black lever long reach faucet supplied
- Reduces sediment, dirt, rust, chlorine, taste and odour
- Removes parasitic cysts including giardia and cryptosporidium

timestrip™ filter cartridge change reminder used on specific products

### Total Flow

- Filters all water to the existing cold water tap – no need for separate faucet
- Reduces sediment, dirt, rust, chlorine, taste and odour
- Removes parasitic cysts including giardia and cryptosporidium
- 0.5 micron extra fine filtration
- Stainless steel braided hoses and fittings provided
- Timestrip cartridge change reminder

### QCP 2000

- High capacity twin quick change system
- Reduces sediment, dirt, rust, chlorine, taste and odour
- Removes parasitic cysts including giardia and cryptosporidium
- Easy change sanitary cartridges
- Auto shut off heads
- All fittings included
- Stylish fin faucet supplied
- Timestrip cartridge change reminder

### WSP 2000

- High capacity twin system for extra dirt holding
- Sediment prefilter and final post filter
- Reduces sediment, dirt, rust, chlorine, taste and odour
- Removes parasitic cysts including giardia and cryptosporidium
- All fittings and wrench included
- Black lever long reach faucet supplied

## HOUSINGS

*Pure Clean H2O supply a range of housings with various heights, sizes and connections to suit all applications and flow rates. Economical plastic housings use the wide range of D.O.E. (Double Open End) cartridges. Housings are pressure tested to ensure they perform in tough operating conditions and meet WaterMark specifications.*

### PH3410

- Popular standard housing is available with 3/4" and 1/4" ports.
- WaterMark certification to Australian Standards
- Mounting bracket and spanner available
- Great for domestic, commercial, tank water applications
- Durable, resistant polypropylene material
- Made in USA to international quality standards

### PH3420

- 2 high housing with 3/4" ports for high flow and extra life.

### PH1010JB 1 high

- Jumbo housing with 1" ports for high flow and capacity.
- Ideal for larger domestic and commercial applications
- Mounting bracket and spanner available
- Pressure relief valve in head

### PH1020JB 2 high

### Whole House Systems

- high capacity
