

Water Filtration for Caravans

Caravan Drinking Water Filter Systems for caravans, campers and R.V's

- Improves water quality
- Reduces sediment and taste/odour

How to make that perfect cuppa? Ensure your vans drinking water tastes great by using a WFS water filter system. The WFS system is easy to install, use and change out replacement cartridges. Cartridges are designed to be changed every 12 months (depending on water quality). Cartridges should be flushed through with 10 litres of water after extended period of non use.

- Easy to use quick change system
- Filter manufactured in U.S.A.
- Reduces sediment
- Reduces taste/odour/chlorine
- 1 year warranty on fixed parts
- Auto shut off head
- Quick connect fittings
